BOTNOMICS

-  Name :- BitOne Token [BOT]
-  Total Supply :- 1,000,000 BOT
-  Decimal :- 9
-  Blockchain :- Binance Smart Chain (BSC)
-  Dex Listing :- PancakeSwap
-  Liquidity Pool :- 100% of BOTs paired with 5,000 USDT
-  Launch Prize :- 0.005\$/BOT

About BitOne Token (BOT)

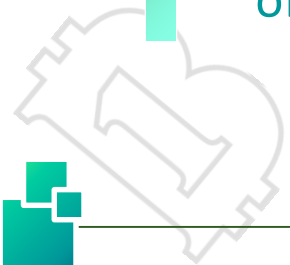

Our Commitment

we are dedicated to creating new standards of **Transparency**, **Decentralization**, and **Community Trust** in the crypto-currency world.

Our Mission

Our mission is to offer a Truly Decentralized Ecosystem where every participant has equal opportunities and full confidence in the integrity of the system.

Liquidity Transparency

The entire supply of **BitOne (1,000,000 BOT)** has been added to the **PancakeSwap liquidity pool**, paired with **\$5,000 liquidity**.

Add Liquidity	44203395	2024-11-21 12:08:54	0x7E11c18C...F596d123A	OUT	PancakeSwap V2: BSC-...	5,000	Binance-Peg ... (BSC-US..

Permanent Liquidity Burn

The **PancakeSwap LP (Liquidity Provider) tokens** for the BitOne Token liquidity pool have been **permanently transferred to a burn address**, effectively locking the liquidity forever.

3. Creator private key open

The address used to create the BitOne Token had its **private key publicly disclosed**, further enhancing the transparency and trustworthiness of the project.

CONTRACT CREATOR

0x7E11c18C...F596d123A  at txn 0x492aaabad0...

TOKEN TRACKER

 BEP-20: BitOneToken (BOT)

Q: Is it normal for a crypto creator to reveal the private key?

A: No, it's rare. Revealing the private key means the creator gives up all control, ensuring transparency and decentralization.

Q: Why would a creator do this?

A: To build trust by showing the project is fully community-driven with no central authority.

Commitment to fairness

Smart Contract Security & Ownership Renouncement

- **Ownership Renounced:** No central control, ensuring a fully decentralized and autonomous ecosystem.
- **Immutable & Secure:** The contract is not **upgradable** or **pausable**, with no admin or operator address.
- **Tamper-Proof:** Unauthorized withdrawals of BOT or USDT are impossible, safeguarding user funds.

This commitment guarantees Trust, Transparency, and a Community-driven future.

Innovative mechanism (USP)

- **Purchase Protection:**
 - BOT cannot be purchased by individuals, crypto whales, or large investors.
 - This ensures that no single entity can dominate the token supply or manipulate the market, promoting fairness.
- **Earn BOT by Providing Liquidity:**
 - Users can earn BitOne Tokens (BOT) by providing liquidity to the BitOne contract.
 - This incentivizes active participation and contributes to the growth of the ecosystem.
- **Easy Swap of BOT:**
 - Once earned, BOT can be easily swapped for USDT on PancakeSwap or through the internal swap platform.
 - This offers flexibility and convenience for users to exchange their tokens.

Registration charge 10\$/ID

10\$ register fees will be transferred to the Liquidity Pool of PancakeSwap via the BitOne Network smart contract..

Giveaways

We're excited to build the BitOne community, invited you to be a part of it with our exclusive BitOne token giveaway!

What's the Offer?

All registered users will be providing giveaway

500\$ as a LAUNCHING BONUS,

this bonus is limited to the first 5000 users only.

And it will be generated at a rate of **10% per month,**

Invite Friends & Earn More launching benefits!

Boost your rewards by inviting friends! For every referral, User will earn additional giveaway USDT (\$):

-  Level 1: get 50 \$ per ID.
-  Level 2: get 50 \$ per ID (need 5 direct ID to open level2).
-  Level 3: get 50 \$ per ID (need 10 direct ID to open level3).

Flexible Claiming

1. To claim the giveaway, the user must provide liquidity and have at least one direct referral who has also provided a minimum of \$50 liquidity.
2. The giveaway can only be claimed once and will not be available in future.
3. The giveaway claim will be added to the payout wallet team reward section.

“

This is not just a plan or concept.....

it's an opportunity to transform your life.

Take the time to understand it fully; even a small mistake could impact your future. Make every decision with care. ”

Become a Liquidity Provider (LP)

1st liquidity provide (LP) - *50\$ to 100\$*

From 2nd Liquidity provision (LP) – 100\$ (multiple of 100\$ like 100\$,200\$,300\$...etc).

Next LP will be possible only after 24 hrs from last LP and not more than 3x of current LP.

Benefits

Payout limit for Participant - 200% (2x) of LP

Payout limit for Mentor - 300% (3x) of LP

*Get LP reward at a rate of **0.66% daily (20% monthly)** based on the available payout limit (2X) or (3X) until the participants receives the full return.*

(To become mentor – please check [page 21](#) global mentorship eligibility.

BitOne's 70-30 Smart Contract Model

BitOne Token introduces a unique 70-30 model within its smart contract, designed to enhance user experience, minimize market volatility, and ensure a truly decentralized system.

70% for PancakeSwap Live Trading:

- When users interact with the contract, **70% of their USDT** is automatically utilized to purchase BOT tokens directly from PancakeSwap at live market rates.

30% Reserved in USDT:

- **30% USDT** Reserved in the contract for users to withdraw via the "Get USDT" option or swap BOT for USDT directly.

Benefits of the 70-30 Formula

Reduced Sell Pressure on PancakeSwap: By allowing users to directly interact with the contract for USDT withdrawals or swaps.

BitOne's 70-30 Smart Contract Model

30% remains for get USDT or Internal Swap operation.

BitOne network contract.

0xC20719409772a85c17AA50781097049336cF2867

Withdrawal

Two options for withdrawing their payouts, min get operation 10\$.

- **Get BOT** - Users can get their all LP Reward + 5% of Team reward in BitOne Token (BOT) at the live market rate. *This option will transfer BOT directly to the user's registered wallet address,*
- **Get USDT** - Users can get all available LP reward and Team reward in USDT. *30% of the user-provided liquidity remains in the contract and can be withdrawn as USDT. This mechanism helps to reduce unnecessary selling pressure on PancakeSwap and provides more stability.*

Remember, payout limit will reduced on every get operation.

5% deduct on every **get BOT** and **get USDT** operation,
2% USDT goes to development & 3% remains in contract..

Network Marketing

For participants with big dreamers and the potential to grow the network, BitOne offers powerful rewards to help you achieve significant financial success.

- | | | |
|---|----------------------------------|-------------------------------|
| <input type="radio"/> Direct reward | – 10% of every LP | } From personal team business |
| <input type="radio"/> Powerful level reward | – 10% of every LP | |
| <input type="radio"/> Global Single line reward | – 49% of every LP | } From global business |
| <input type="radio"/> Global mentorship reward | – 10% only on 1 st LP | |

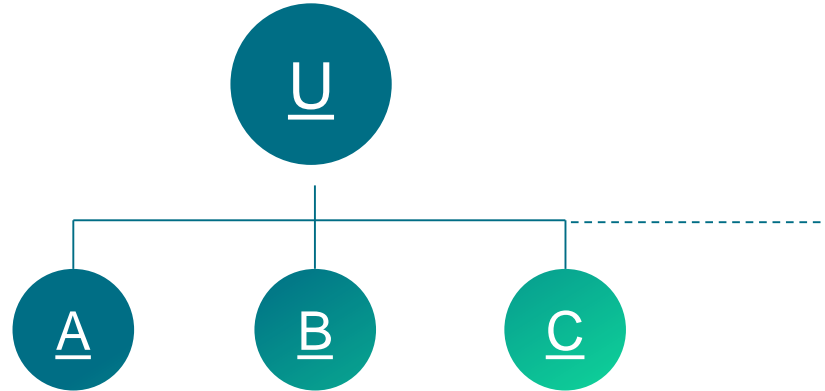

Direct reward – 10%

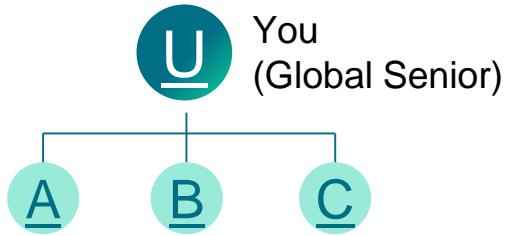

No qualification required, but must have 50\$ or sufficient payout limit in your wallet to receive this income: otherwise, it will lapse.

Earn 10% of the every liquidity contributed by participants that you directly refer.

Global single line – 49%

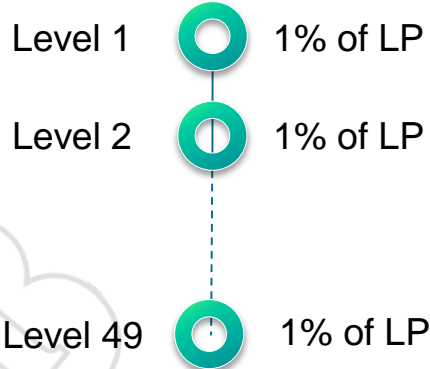

Reward :

- Global Seniors will earn a **1% reward** on every liquidity provision from **49 global participants**, added to their single-line structure.

Eligibility :

- To become a Global Senior, user must have **3 direct participants** within **24 hours** of their first liquidity provision
- Required **min. 50\$ payout limit**.

Single line

Once the time expired to qualify as a Global Senior, user will **permanently lose** single-line income and will **never** be eligible for it again.

Powerful level reward – 10%

*“The leg with the highest business volume will be referred to as the **Strong Leg**, while the remaining legs will be categorized as **Weaker Legs**.”*

Reward :

- Participants will earn **10% of the total business** generated from all weaker legs, extending to an **unlimited depth of levels**.

Eligibility :

- No additional requirements.
- However, business from a minimum of **3 weaker legs** is required to claim the **Powerful Level Reward**.

Note - Once claimed, the reward will be credited directly to the participant's payout wallet. The business from all legs (strong and weaker) will then reset and start being counted again from that point until the next claim.

Global mentorship reward - 10%

The Global Mentorship Reward has the potential to transform the lives of all leaders

Reward :

- 10% of the first liquidity provisions of Global Business will be equally shared among all qualified mentors every **week**.
- Additionally, mentors' payout limit will increase to **300% (3x)** of their next LP.

Eligibility :

- Enroll **5 direct legs**, each contributing a minimum of **\$50** in liquidity.
- Achieve a total business of **\$20,000** across all weaker legs within 30 days from user's 1st liquidity provide.

Note - Closing and distribution of mentorship reward from the BitOne contract on a weekly basis.
Only leaders can call the contract themselves to claim their mentorship reward.

SWOT analysis

STRENGTHS

- Fully decentralized, fostering community trust.
- High transparency with renounced contract ownership.
- Unique liquidity mechanism reduces direct selling pressure.

S

WEAKNESSES

- Limited accessibility; cannot be purchased directly.
- Reliance on user participation for liquidity.
- Low market awareness as a new project.

W

OPPORTUNITIES

- Growing interest in the DeFi market.
- Potential for partnerships to enhance visibility.
- Expanding user base as DeFi becomes more mainstream.

O

THREATS

- Market volatility affecting token stability.
- Regulatory risks impacting operations.
- Intense competition in the DeFi space.
